

AMENDMENTS TO THE DRAWINGS

Please substitute the accompanying replacement sheet  
for the currently pending sheet of drawings.

#### REMARKS

Applicant respectfully requests favorable reconsideration of this application, as amended.

The Examiner's indication of allowable subject matter in Claims 44 and 50 is acknowledged with appreciation. In order to expedite the issuance of patent protection for Applicant's invention, and without acceding to the outstanding rejections, the subject matter of Claims 44 and 50 (including intervening Claims 43 and 51, as renumbered by the Examiner) has been incorporated into independent Claims 18 and 45, respectively. Claims 43-44 and 49-50 have been cancelled accordingly.

In view of the aforementioned amendments, all pending claims are now in condition for allowance.

The specification and drawings have also been amended to place this application in better form for issue. To facilitate entry of the changes, a substitute specification accompanies this Amendment. A marked-up version showing the changes is also submitted herewith. The substitute specification removes superfluous text and matter relating to some unclaimed embodiments and also corrects self-evident grammatical errors and erroneous assignments of reference numerals. Additionally, the Summary of the Invention has been revised to better reflect the subject matter now being claimed. Further, to facilitate understanding, on page 9 (marked-up version) the inherent manner in which the aerosol 26 is propelled through aerosol tube 18 has been explicitly

set forth. All amendments are supported by the specification and drawings as filed. No new matter has been added.

A Notice of Allowance is respectfully solicited.

The Commissioner is hereby authorized to charge to Deposit Account No. 50-1165 any fees under 37 C.F.R. §§ 1.16 and 1.17 that may be required by this paper and to credit any overpayment to that Account. If any extension of time is required in connection with the filing of this paper and has not been requested separately, such extension is hereby requested.

Respectfully submitted,

Date: March 2, 2011
